

Value of the lectures

Pace of the classes

Value of slides

Hours spent outside class

Number of evaluations received = 59; number of students in the class = 110

**Quests : 46 love it, 7 are in-between, and 3 hate it.**

<ul style="list-style-type: none"> <li>• Keeps me studying every week. Love it. [6]</li> <li>• Rounding (sig figs) should be told to us [6] <ul style="list-style-type: none"> <li><i>Not really: this doesn't happen in real-life nor in test and exams. What's the rule of thumb?</i></li> </ul> </li> <li>• Grades available soon [4]</li> <li>• Questions are too easy [2] <ul style="list-style-type: none"> <li><i>I know, they are mostly for review and practice.</i></li> </ul> </li> <li>• Should tell wrong/right answer right away [2] <ul style="list-style-type: none"> <li><i>No, have to wait till after the test</i></li> </ul> </li> <li>• Part marks are not awarded [1] <ul style="list-style-type: none"> <li><i>Part marks will be awarded in multi-part questions</i></li> </ul> </li> <li>• Why not just use Avenue? [1] <ul style="list-style-type: none"> <li><i>I don't get any data/analytics from Avenue :(</i></li> </ul> </li> <li>• Have more questions [1]</li> <li>• More detailed feedback on MCQs [1]</li> </ul>	<ul style="list-style-type: none"> <li>• Internet cuts off and then I lose time [1] <ul style="list-style-type: none"> <li><i>Perhaps do it on campus instead?</i></li> </ul> </li> <li>• Cannot access previous solutions [1] <ul style="list-style-type: none"> <li><i>Yes you can: log in after the test</i></li> </ul> </li> <li>• Too many quests [1]</li> <li>• No new tabs [1] <ul style="list-style-type: none"> <li><i>Fixed in the prior test - thanks!</i></li> </ul> </li> <li>• Don't display seconds in countdown [1] <ul style="list-style-type: none"> <li><i>Fixed in the prior test - thanks!</i></li> </ul> </li> <li>• Allow us to upload images [1] <ul style="list-style-type: none"> <li><i>This features is planned: coming next semester.</i></li> </ul> </li> <li>• Allow us to upload comments [1] <ul style="list-style-type: none"> <li><i>This features is planned: coming next semester.</i></li> </ul> </li> <li>• There are students collaborating on Quest[1] <ul style="list-style-type: none"> <li><i>There is a complete electronic trail kept of all activity. I will investigate this - thanks.</i></li> </ul> </li> </ul>
--	---

**Like about the course**

• Practical and industrial examples	[32]	• Everything	[1]
• Videos and recordings of the class	[9]	• Critical thinking is encouraged	[1]
• Quests	[7]	• I can re-watch videos: very helpful	[1]
• Organization of the course	[6]	• It is engineering stats and not math stats	[1]
• Well-balanced assignments	[5]	• Covers multiple learning styles	[1]
• Good explanation of concepts	[4]	• Much easier to understand than prior stats	
• The option of doing 600-level questions	[4]	course which left us with a fear of stats.	[1]
• Using R	[3]	• Good return time for assignments	[1]
• Useful lectures	[3]	• The course notes	[1]
• Like all the assistance with R	[3]	• Manageable workload	[1]
• Frequency of quizzes and assignments	[2]	• Good textbook; easy to understand	[1]
• I'm understanding stats for the first time	[2]	• Instructor's pink shirts	[1]
• Pace of course	[2]	• Approachable instructor	[1]
• No midterms	[2]		

**Improvements to make**

• More R examples in class	[9]	• Notice of what the test or assignment will cover.	
<i>No problem: this will happen</i>		<i>Done: this happened in the previous ones.</i>	[1]
• Would like more feedback from TA on assignment grading. <i>OK, this will happen.</i>	[6]	• Different examples in the textbook than in the notes - for more variety	[1]
• Solutions of weekly tests posted	[2]	• Some questions are unclear in assigns	[1]
• More examples in class	[2]	• Have final version of the notes available	[1]
<i>The next section has lots of examples coming.</i>		• Show what will be on exam	[1]
• More than 1 hour for Quests	[2]	<i>Many examples in the assignments.</i>	
• More sample problems in course notes	[1]	• Solutions to examples put in slides	[1]
• Unclear on what's required in assignments	[1]	• Don't like the weekly quizzes; prefer theoretical testing	[1]
• Use incomplete data sets in assignments to be more realistic	[1]	• Summary slides of important concepts	[1]
• Rely less on R, do things more by hand	[1]	• Review answers of Quests in the class	[1]
• Lay slides out better	[1]	• Grades should be accessible	[1]
• Suggest textbook readings	[1]	<i>They are in Avenue since a few weeks ago.</i>	
• Complete examples in the slides in class	[1]	• Assignments are too easy	[1]
• Better coverage of material in assignment	[1]	• I want a midterm	[1]
• Better methods for checking assumptions	[1]	• Leave more space in the slides for notes	[1]
• Not have lectures in T-13	[1]	• People are collaborating unfairly on assignments	[1]
<i>I have no say in the venue. Sorry.</i>			

**About the R tutorials**

• Useful; I learn everything from them.	[10]	• They need to be indexed better	[2]
• I just Google stuff / more useful discussion boards on line	[8]	• I like that they follow order of the course	[1]
<i>Perfect: this is what I intended. The tutorials on my website are a starting point. There is so much useful material on line at other sites.</i>		• Doesn't cover all topics in assignments	[1]
• Good for quick reference	[3]	• Used coursera.org website	[1]
		• Would want them to be more detailed	[1]
		• Basic concepts were not covered	[1]
		• Saves me from reading discussion boards	[1]
		• Superior to other R resources on line	[1]

**Major changes to make**

- More R examples in class and more examples in general. Will follow up with the TAs also.
- Other minor changes, as suggested above, to slides and Quests. *Thank you!*
